TARA MINERALS CORP. AND SUBSIDIARY
(A Subsidiary of Tara Gold Resources Corp)
(An Exploration Stage Company)
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Business and Significant Accounting Policies

Nature of business and principles of consolidation:

The accompanying Condensed Consolidated Financial Statements of Tara Minerals Corp. (the “Company”) should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended October 31, 2008 and the Company’s Transition Report on Form 10-QT for the two months ended December 31, 2008. Significant accounting policies disclosed therein have not changed.

Tara Minerals Corp. (the “Company”) was organized May 12, 2006 under the laws of the State of Nevada. The Company currently is engaged in the acquisition, exploration and development of mineral resource properties in Mexico. The Company owns 99.9% of the common stock of American Metal Mining, S.A. de C.V. (the “subsidiary”), which was established in December 2006 and operates in México. The Company currently has limited operations and, in accordance with Statement of Financial Accounting Standard (SFAS) No. 7, “*Accounting and Reporting by Development Stage Enterprises*,” is considered an Exploration Stage Company.

The Company is a subsidiary of Tara Gold Resources, Corp.

In February 2009, the Company opted to change its year end from October 31 to December 31 to align with the year end of its parent company, Tara Gold Resources Corp.

The accompanying Condensed Consolidated Financial Statements and the related footnote information are unaudited. In the opinion of management, they include all normal recurring adjustments necessary for a fair presentation of the condensed consolidated balance sheet of the Company at March 31, 2009, the condensed consolidated statements of operations for the three months ended March 31, 2009 and 2008 and the condensed consolidated statements of cash flows for the three months ended March 31, 2009 and 2008. Results of operations reported for interim periods are not necessarily indicative of results for the entire year.

Tara Minerals Corp. (the “Company”) was organized May 12, 2006 under the laws of the State of Nevada. The Company currently is engaged in the acquisition, exploration and development of mineral resource properties in Mexico. The Company owns 99.9% of the common stock of American Metal Mining, S.A. de C.V. (the “subsidiary”), which was established in December 2006 and operates in México. The Company currently has limited operations and, in accordance with Statement of Financial Accounting Standard (SFAS) No. 7, “*Accounting and Reporting by Development Stage Enterprises*,” is considered an Exploration Stage Company.

The Company is a subsidiary of Tara Gold Resources, Corp.

The consolidated financial statements include the financial statements of the Company and 99.9% owned subsidiary. All amounts are in U.S. dollars unless otherwise indicated. All significant intercompany balances and transactions have been eliminated in consolidation.

The subsidiary’s functional currency is the U.S. dollar. As a result, the financial statements of the subsidiary have been remeasured from Mexican pesos into U.S. dollars using (i) current exchange rates for monetary asset and liability accounts, (ii) historical exchange rates for nonmonetary asset and liability accounts, (iii) historical exchange rates for revenues and expenses associated with nonmonetary assets and liabilities and (iv) the weighted average exchange rate of the reporting period for all other revenues and expenses. In addition, foreign currency transaction gains and losses resulting from U.S. dollar denominated transactions are eliminated. The resulting remeasurement gain or loss is recorded in other comprehensive (loss) income.

TARA MINERALS CORP.
(A Subsidiary of Tara Gold Resources Corp)
(An Exploration Stage Company)

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The financial statements of the subsidiary should not be construed as representations that Mexican pesos have been, could have been or may in the future be converted into U.S. dollars at such rates or any other rates.

Relevant exchange rates used in the preparation of the financial statements for the subsidiary are as follows for the three months ended March 31, 2009 and 2008, respectively. (Mexican pesos per one U.S. dollar).

	<u>March 31, 2009</u>
Current exchange rate	Ps. 14.3855
Weighted average exchange rate for the two months ended	Ps. 14.3725
	<u>March 31, 2008</u>
Current exchange rate	Ps. 10.6987
Weighted average exchange rate for the two months ended	Ps. 10.8090

Reclassifications and Adjustments

Certain reclassifications, which have no effect on net income (loss), have been made in the prior period financial statements to conform to the current presentation.

Note 2. Property, equipment and mine development

	March 31, 2009 <u>(Unaudited)</u>	December 31, 2008 <u>(Unaudited)</u>

TARA MINERALS CORP.
(A Subsidiary of Tara Gold Resources Corp)
(An Exploration Stage Company)

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

- a. In September 2006 another subsidiary of Tara Gold Resources Corp., the Company's parent, acquired the Pilar de Mocribo Prospect (Pilar) from an unrelated third party for \$800,000 plus \$120,000 of value added tax. This property was then assigned to the Company in January 2007. The Company is required to repay the other subsidiary of its parent for this mining concession as follows (including the applicable value added tax):

<u>Calendar Year</u>	
2009	<u>\$ 596,764</u>

In accordance with Accounting Principles Board Opinion 21, "*Interest on Receivables and Payables*" (APB 21), the future payments of the total payment amount of \$800,000 has been discounted using the incremental borrowing rate of 5.01%. As of March 31, 2009, the present value of future payments is as follows:

	Debt	IVAT	Total
Total remaining debt	\$ 547,609	\$ 82,141	\$ 629,750
Imputed interest	(32,986)	-	(32,986)
Present value of future payments	\$ 514,623	\$ 82,141	\$ 596,764

As of October 31, 2008, the last two payments for the Pilar mining concession due to Corporacion Amermin ("Amermin") see Note 5, were modified and extended for exactly one year. Pursuant to the agreement, the Company removed one of the eight concessions in the Pilar groupings and returned it to Amermin.

- b. In November 2008, the Company executed an agreement to acquire eight mining concessions known as "Centenario" from an independent third party. The properties approximate 7,000 hectares and were purchased for a total of \$1,894,050, including \$247,050 in value added taxes to be paid in cash.

The original agreement did not specify that the \$133,000 already paid would be applied to the effective purchase price of this mining concession resulting in the final agreement being amended; however, the amendment was not executed as of the date of this filing. This amendment will include the notation that the effective purchase price of this property, excluding value added taxes, is \$1,780,000, which includes the \$133,000 previously paid and is currently in deposits in our balance sheet.

The debt payment schedule per the original agreement is as follows:

<u>Calendar Year</u>	
2009	\$ 264,000
2010	287,500
2011	575,000
2012	732,550
	\$ 1,859,050

TARA MINERALS CORP.
(A Subsidiary of Tara Gold Resources Corp)
(An Exploration Stage Company)

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

In accordance with Accounting Principles Board Opinion 21, “*Interest on Receivables and Payables*” (APB 21), the future payments of the total payment amount of \$1,647,000 has been discounted using the incremental borrowing rate of 2.97%. As of December 31, 2008, the present value of future payments on the Centenario contract is as follows:

	Debt	IVAT	Total
Future payments	\$ 1,616,565	\$ 242,485	\$ 1,859,050
Imputed interest	(120,435)	-	(120,435)
Present value of debt	1,496,130	242,485	1,738,615
Less: current portion	(191,755)	(34,435)	(226,190)
	\$ 1,304,375	\$ 208,050	\$ 1,512,425

Note 3. Stockholders’ Equity

The authorized common stock of the Company consists of 75,000,000 shares with par value of \$0.001.

In March 2009, the Company sold, in a private offering of 2,000,000 units for \$400,000 in cash, or \$0.20 per unit. Each unit consisted of one share of the Company’s common stock and one warrant. Each warrant entitles the holder to purchase one share of the Company’s common stock at a price of \$0.40 per share at any time on or before April 30, 2011. These shares remain part of common stock subscribed at March 31, 2009.

During the three months ended March 31, 2008, the Company issued 1,200,000 common shares for mining equipment valued at \$600,000 or \$0.50 per share.

Net loss per common share

Net loss per share is calculated in accordance with SFAS No. 128, “*Earnings Per Share*.” The weighted average number of common shares outstanding during each period is used to compute basic loss per share. Diluted loss per share is computed using the weighted averaged number of shares and dilutive potential common shares outstanding. Dilutive potential common shares are additional common shares assumed to be exercised.

There were no potentially dilutive shares at March 31, 2009 or 2008.

TARA MINERALS CORP.
(A Subsidiary of Tara Gold Resources Corp)
(An Exploration Stage Company)
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 4. Income Taxes

During the year ended October 31, 2007, the Company adopted Financial Accounting Standards Board (FASB) Interpretation No. 48, “*Accounting for Uncertainty in Income Taxes*” (FIN 48), which supplements SFAS No. 109, “*Accounting for Income Taxes*,” by defining the confidence level that a tax position must meet in order to be recognized in the financial statements. The Interpretation requires that the tax effects of a position be recognized only if it is “more-likely-than-not” to be sustained based solely on its technical merits as of the reporting date. The more-likely-than-not threshold represents a positive assertion by management that a company is entitled to the economic benefits of a tax position. If a tax position is not considered more-likely-than-not to be sustained based solely on its technical merits, no benefits of the tax position are to be recognized. Moreover, the more-likely-than-not threshold must continue to be met in each reporting period to support continued recognition of a benefit. With the adoption of FIN 48, companies are required to adjust their financial statements to reflect only those tax positions that are more-likely-than-not to be sustained. Any necessary adjustment would be recorded directly to retained earnings and reported as a change in accounting principle.

The Company did not provide any current or deferred U.S. federal income tax provision or benefit for any of the periods presented because the Company has experienced operating losses since inception. The Company provided a full valuation allowance on the net deferred tax asset, consisting of net operating loss carry forwards, because management has determined that it is more-likely-than-not that the Company will not earn income sufficient to realize the deferred tax assets during the carry forward period.

The components of the Company’s deferred tax asset as of March 31, 2009 are as follows:

	2009	2008
Net operating loss carry forward	\$ 722,000	\$ 670,000
Valuation allowance	(722,000)	(670,000)
Net deferred tax asset	\$ -	\$ -

A reconciliation of the statutory income taxes rates and the effective rate is as follows:

	2009	2008
Tax at statutory rate (blended U.S. and MX)	32%	33%
Valuation allowance	(32%)	(33%)
	-	-

Upon adoption of FIN 48, the Company had no gross unrecognized tax benefits that, if recognized, would favorably affect the effective income tax rate in future periods. These amounts consider the guidance in FIN 48-1, “*Definition of Settlement in FASB Interpretation No. 48.*” The Company has not accrued any additional interest or penalties as a result of the adoption of FIN 48.

The Company files income tax returns in the United States and certain states in the United States and certain foreign jurisdictions. The Company filed its year end tax return for October 31, 2007 and due to the change from a fiscal year end to a calendar year end, will file its December 31, 2007 and 2008 tax returns after the filing of these financial statements. These U. S. federal and foreign jurisdiction income tax returns for the years ended December 31, 2008 and 2007 are considered open tax years as of the date of these condensed consolidated financial statements. No income tax returns are currently under examination by any tax authorities.

Note 5. Related Party Transactions

The Company is a subsidiary of Tara Gold Resources Corp. As of April 30, 2007, another subsidiary of Tara Gold Resources Corp., Corporacion Amermin, S.A. de C.V. (“Amermin”), made the arrangements to purchase the

TARA MINERALS CORP.
(A Subsidiary of Tara Gold Resources Corp)
(An Exploration Stage Company)
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Pilar, Don Roman and Las Nuvias properties listed in Note 2. These properties were assigned to the Company's subsidiary American Metal Mining, S.A. de C.V ("American Metal Mining") as of January 2007. American Metal Mining makes payments to Amermin and Amermin makes payments related to the original purchase agreement for the Pilar mining concession described in Note 2a above. Due to related parties current and non-current portions are \$882,829 and \$142,295 at March 31, 2009. Due to related parties current and non-current portions were \$815,794 and \$87,658, respectively, as of December 31, 2008.

In January 2007, Amermin paid the entire balance of Don Roman and Las Nuvias concessions. Per the assignment agreement, transferring the property to American Metal Mining, the Company makes payments to Amermin to repay for the amounts paid plus related value added taxes. As of March 31, 2009 the Company owed Amermin \$210,000, which is included in the Due to related parties, current portion.

In July 31, 2008, the Company borrowed \$34,084 in cash from Amermin in the form of short-term loans. The payables, denoted as due to related parties on the balance sheet, accrue at an annual interest rate of 6.5% and were payable in September 2008. As of March 31, 2009, \$6,171 is still due to Amermin. This amount is included in our Due to Related Parties account.

Note 6. Subsequent Events

Subsequent to quarter end the Company:

- sold 2,040,000 units for \$408,000 in cash, or \$0.20 per unit. Each unit consisted of one share of the Company's common stock and one warrant. Each warrant entitles the holder to purchase one share of the Company's common stock at a price of \$0.40 per share at any time on or before April 30, 2011.
- issued 192,500 shares for a finder's fee in association with the Company's private placement discussed above and valued at \$0.47 per share for a total value of \$90,475.
- issued 650,000 shares for officer bonuses and 150,000 shares for consulting services, valued at the closing price on April 23, 2009 of \$0.16 per share, for a total value of \$128,000.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

Tara Minerals was incorporated on May 12, 2006. During the period from its incorporation through March 31, 2009, Tara Minerals did not generate any revenue and incurred \$199,418 in exploration expenses and \$2,902,541 in operating and general administration expenses. Included in operating and general and administrative expenses is a non-cash charge of \$1,164,173 pertaining to the issuance of stock options.

Between October 31, 2008 and November 21, 2008 Tara Minerals sold 560,000 Units at a price of \$0.20 per Unit. Each Unit consisted of one share of Tara Mineral's common stock and one warrant. Each warrant entitles the holder to purchase one share of Tara Mineral's common stock at a price of \$0.40 per share during the two year period following the sale of the Units. The warrants expire two years after their issuance.

Tara Minerals decided to change its year end from October 31 to December 31 to align with the year end of its parent company, Tara Gold Resources Corp.

As of March 31, 2009 Tara Minerals had a 100% interest in the mining properties listed below. Although Tara Minerals believes that each of these properties has deposits of silver, copper, lead or zinc, the properties are in the exploratory state and may never produce any of these metals in commercial quantities.

All of Tara Minerals' properties are located approximately 25 kilometers from the town of Choix, Sinaloa State, Mexico.

In Mexico, land size is denominated in hectares and weight is denominated in tonnes. One hectare is equal to approximately 2.47 acres and one tonne is equal to 2,200 pounds.

Pilar de Moceribo Prospect

The Pilar de Moceribo prospect is 1,260 hectares in size. Preliminary evaluation of the property has identified a series of parallel NE trending mineralized structures that can be traced for more than 300 meters. These mineralized structures lie within a complex suite of volcanic-granitic and sedimentary (carbonate) rocks. As of March 31, 2009 a preliminary rock-chip sampling program, at a cost of approximately \$9,000 has been completed on the property. Tara Minerals plans to delay any major work on this property so that more resources can be devoted to the Don Roman and Lourdes concession.

Don Roman and Lourdes Concession

The Don Roman and Lourdes concession is 331 hectares in size. Preliminary evaluation of the property identified an abandoned mine and extensive sulfide mineralization within a complex suite of volcanic-granitic and sedimentary rocks. Detailed surface sampling and road construction have been completed at cost of approximately \$172,000.

Permits needed to move towards active mining, assessing exploitation options, and costs associated with the design of various mining and recovery systems have been obtained. Mining and processing equipment have been purchased and the plant, which will be capable of processing a minimum of 200 tonnes per day, has begun test ore runs on one of three circuits. Water rights for the property have been acquired and a well to supply water to the plant has been completed.. High voltage electrical service has been supplied to an electrical substation which will supply power to operate the Plant. Two circuits

capable of producing a minimum of 200 tonnes per day have been completed and are under going test runs in order to make final adjustments. Work continues on the third ball mill, which will add a minimum of another 100 tonnes of production capacity, and also the addition of a fourth ball mill, which will be used as a regrind circuit. When the plant has been completed, it is expected to operate at a minimum throughput rate of 400 tonnes per operating day. Initial discussions have been held with no less than four different concentrate buyers. Negotiations with these buyers are ongoing and proposed sales terms are being reviewed. It is anticipated that a sales agreement will be in place before the end of May, 2009.

Las Nuvias Concession

The Las Nuvias prospect is 41 hectares in size. Preliminary evaluation of the property has identified an abandoned prospect with historic vein-type mineralization occurring within an older complex suite of volcanic-granitic and sedimentary rocks.

As of March 31, 2009 a preliminary rock-chip sampling program, at a cost of approximately \$9,000 has been completed on the property. Since this property is directly south of the Don Roman and Lourdes concession, Tara Minerals plans to delay any major work on this property so that more resources can be devoted to the Don Roman and Lourdes concession.

Centenario Prospect

The Centenario prospect is approximate 7,000 hectares in size and is adjacent to Tara Minerals existing mineral claims. Preliminary evaluation of the property has indicated the potential for five separate mineral systems each having varying mineral characteristics. Initial sampling has indicated the potential for two lead, zinc, silver systems; two gold copper systems; and one iron ore, gold, copper system.

As of March 31, 2009 a preliminary rock-chip sampling program, at a cost of approximately \$15,000 has been completed on the property. Tara Minerals plans to complete a detailed mapping and sampling program on this property, at a cost of approximately \$75,000 by August 2009.

Results of Operation

During the period from its incorporation and through March 31, 2009, Tara Minerals did not generate any revenue and incurred \$199,418 in exploration expenses and \$2,902,541 in operating and general administration expenses. Included in operating and general and administrative expenses are non-cash charges of \$1,164,173 pertaining to the issuance of stock options.

Tara Minerals anticipates that its capital requirements during the twelve months ending March 31, 2010 will be:

Property payments and taxes – Pilar de Moceribo property	\$	629,750
Exploration and Development – Don Roman property		150,000
Exploration and Development - Centenario property		75,000
Property payments and taxes – Centenario property		264,000
General and administrative expenses		350,000
Total	\$	<u>1,468,750</u>

Since its inception, Tara Minerals has financed its operations primarily from the sale of its common stock and warrants.

Tara Minerals' future plans will be dependent upon the amount of capital available to Tara Minerals, the amount of cash provided by its operations, and the extent to which Tara Minerals is able to have joint venture partners pay the costs of exploring and developing its mining properties. Tara Minerals will need to obtain additional capital if it is unable to generate sufficient cash from its operations.

Tara Minerals does not have any commitments or arrangements from any person to provide Tara Minerals with any additional capital.

Tara Minerals anticipates that it will need to hire 15 new employees during the twelve-month period ending March 31, 2010 primarily to run mining operations.

See Note 1 to the financial statements included as part of this report for a description of Tara Minerals' significant accounting policies.

ITEM 4T. CONTROLS AND PROCEDURES

Francis Richard Biscan, Jr., Tara Minerals' Principal Executive Officer and Clifford A. Brown, Tara Minerals' Principal Financial Officer, have evaluated the effectiveness of Tara Minerals' disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934) as of the end of the period covered by this report, and in their opinion Tara Minerals' disclosure controls and procedures are effective.

There were no changes in Tara Minerals' internal controls over financial reporting that occurred during the transition period that have materially affected, or are reasonably likely to materially affect, Tara Minerals' internal control over financial reporting.

PART II
